AMENDMENT TO THE SPECIFICATION

Please amend the specification as noted:

--ABSTRACT OF THE DISCLOSURE

A system and method for providing at least one search result responsive to a search query with search query terms, includes parsing pages for a plurality of text and non-text indexable elements. The invention further includes assigning a location identifier to one or more of the plurality of elements that corresponds to a location of a given element in a given page from the set of pages and is a pointer to the location of the given element. The invention further includes storing the elements and the corresponding location identifier for the elements in a computer readable medium as records, receiving the search query to request a stored record, from a user across a networked connection, searching the plurality of records to determine elements that correspond to the search query. The invention further includes transmitting a text element and a non-text element, to the user across the networked connection~~receiving the search query; locating at least one record containing at least one search query term; displaying a text representation of each of the records containing at least one search query term; and displaying a representation of an object in relation with the text representation for each record that includes an object comprising at least one predetermined attribute. According to another embodiment of the invention, a method for indexing records in an index of an information network, includes the acts of: receiving a record; searching the record for an indication that an object comprising at least one specified attribute is to be displayed with the record; finding the indication; creating a representation of the object; storing the representation in association with the record to which it corresponds; and making an~~

REMARKS

In response to the non-final Office Action dated March 4, 2009, and the telephone discussion with Examiner Leroux, Applicants submit the present Second Supplemental Amendment, amending the Abstract, as per Examiner Leroux.

As such, Applicants request entrance, examination and passage of the pending claims to issuance.

For at least all of the above reasons, Applicants respectfully request that the Examiner withdraw all rejections, and allowance of all the pending claims is respectfully solicited. To expedite prosecution of this application to allowance, the Examiner is invited to call the Applicants' undersigned representative to discuss any issues relating to this application.

Respectfully submitted,

Dated: June 11, 2009
